![SafelyYou logo] **SafelyYou** | **Greater clarity. Empowered care.**
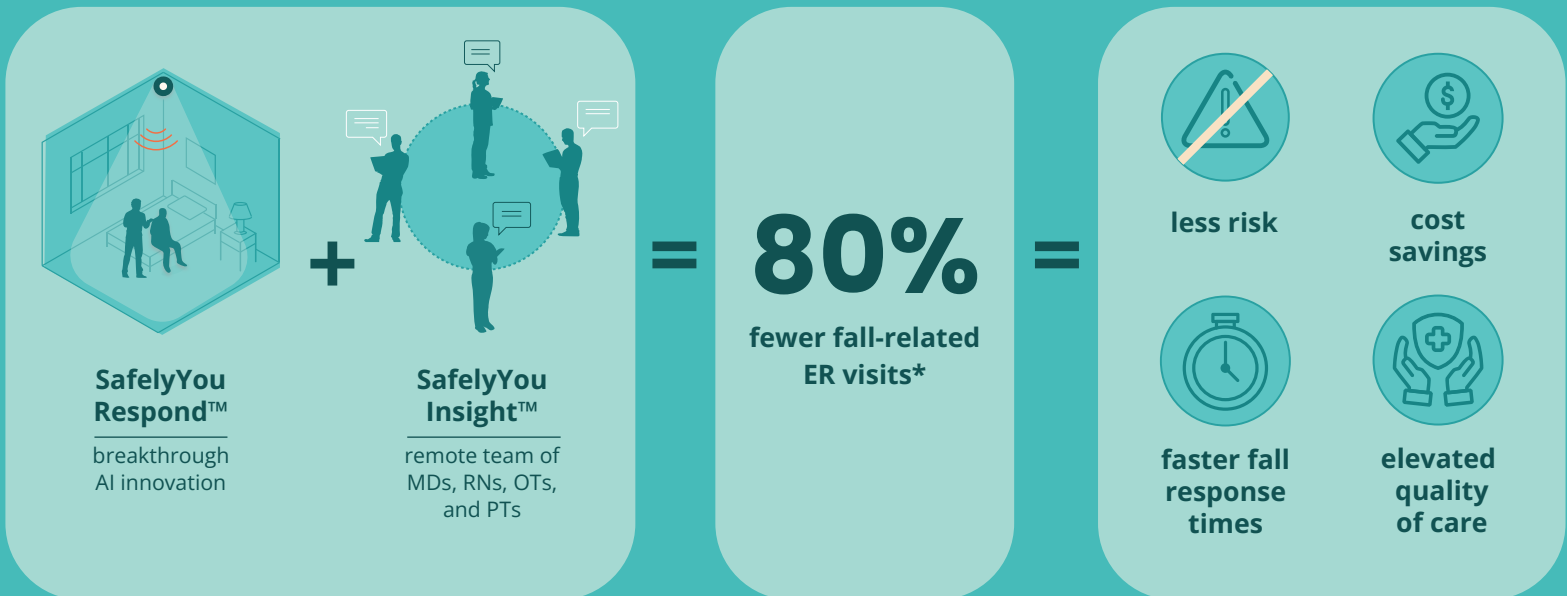

The safest choice is world–leading AI technology.
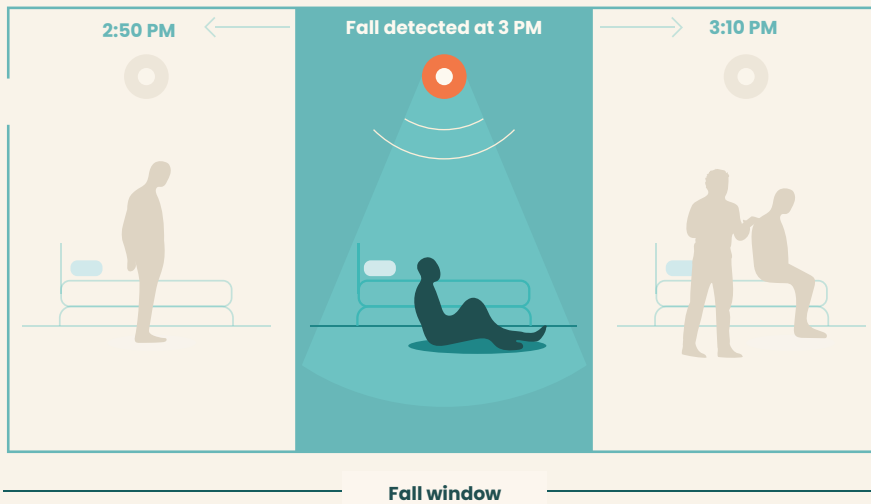

SafelyYou helps better protect seniors.

SafelyYou combines world-leading AI video technology with expert clinical support to both detect and help prevent falls in senior living communities. With this proven solution, on-site care staff can immediately review fall video to assess each fall's severity, getting seniors the right care right away. And SafelyYou fall experts partner with on-site staff to develop proven fall prevention interventions, helping to prevent future falls.

SafelyYou Respond™

breakthrough AI innovation

+

SafelyYou Insight™

remote team of MDs, RNs, OTs, and PTs

=

80%

fewer fall-related ER visits*

=

less risk

cost savings

faster fall response times

elevated quality of care

And that adds up to better outcomes for seniors who use SafelyYou.

*Glen L. Xiong, MD, et al. (July 16, 2019) "Real-Time Video Detection of Falls in Dementia Care Facility and Reduced Emergency Care." *The American Journal of Managed Care*. Volume 25, Issue 7.

Looking out for seniors every minute of every day

2:50 PM — Fall detected at 3 PM → 3:10 PM

Fall window

SafelyYou Respond™ works 24/7.

1. An AI-enabled multi-sensor is installed in the corner of the bedroom, and activated only after consent is received.
2. Video only records events leading up to and after an on-the-ground incident.
3. When a fall occurs, care staff is immediately notified and can review the fall video to assess the fall's severity, getting seniors the right care right away.

Protecting privacy and security, too

SafelyYou adheres to the strictest privacy and security standards.

No live streaming

No audio

No wearables

Only events surrounding a fall incident are recorded

Non-fall video is automatically deleted within minutes

HIPAA compliant

SafelyYou

90% of families opt into SafelyYou services
